2.10.3 All bills are presumed accurate, and shall be binding on the customer unless objection is received by the Company in writing within 30 days after such bills are rendered. No credits, refunds, or adjustments shall be granted if demand therefore is not received by the Company in writing within such 30 day period.

2.10.4 If the Customer chooses to pay by credit card, the Customer agrees to the rules governing that payment option, including applicable limits on the amount of Service that may be used before making a payment. Customer will be notified of any limits that are imposed. If such limits are imposed, Customer may be required to pay for Service with a valid major credit card. ---

**SECTION 3. DESCRIPTION OF SERVICE****3.1 Computation of Charges**

- 3.1.1 The total charge for each completed call may be a variable measured charge dependent on the duration, distance and time of day of the call, or may also be dependent only on the duration of the call (flat rate per minute). The variable measured charge is specified as a rate per minute, which is applied to each minute. All calls are measured in increments as set forth in the Rates Section of this Schedule. Fractions of a billing increment are rounded up to a full billing increment on a per call basis. Fractions of a cent per minute are rounded up to a full cent on a per call basis.
- 3.1.2 Where mileage bands appear in a rate table, rates for all calls are based upon the airline distance between the originating and terminating points of the call, as determined by the vertical and horizontal coordinates associated with the exchange associated with the originating and terminating telephone numbers. If the Customer obtains access to the Company's network by a dedicated access circuit, that circuit will be assigned an exchange for rating purposes based upon the Customer's main telephone number at the location where the dedicated access circuit terminates. The vertical and horizontal (V & H) coordinates for each exchange and the airline distance between them will be determined according to the V&H Coordinate table contained in AT&T's FCC Tariff No. 10 which is incorporated herein by reference.
- 3.1.3 Timing begins when the called station is answered and two way communication is possible, as determined by standard industry methods generally in use for ascertaining answer, including hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. Recognition of answer supervision is the responsibility of the Underlying Carrier. Timing for each call ends when either party hangs up. Company will not bill for uncompleted calls.

### **3.2 Customer Complaints and/or Billing Disputes**

Customer inquiries or complaints regarding service or accounting may be made in writing or by telephone to the Company at:

**13400 Bishops Lane, Suite 295  
Brookfield, Wisconsin 53005  
(800) 391-1551**

Disputes may also be referred to the Federal Communications Commission, 445 12th Street, S.W., Washington, D.C. 20554.

Any objection to billed charges should be reported promptly to Company. Adjustments to Customers' bills shall be made to the extent that records are available and/or circumstances exist which reasonably indicate that such charges are not in accordance with approved rates or that an adjustment may otherwise be appropriate. Where overbilling of a Customer occurs, due either to Company or Customer error, no liability exists which will require the Company to pay any interest, dividend or other compensation on the amount overbilled.

If a Customer accumulates more than One Dollar of undisputed delinquent Company Toll- Free Service charges, the Company Resp. Org. reserves the right not to honor that Customer's request for a Resp. Org. change until such undisputed charges are paid in full. The Company reserves the right to suspend or cancel without advance written notice and without any liability whatsoever, the provision of Toll-Free Service to any Toll-Free Service customer if the Company determines in its sole discretion that the customer is using the Toll-Free Service to make or permit any telephone facility under such customer's control to be used for any purpose or activity including, calling card platforms, prepaid calling card platforms, any obscene, indecent or harassing purpose or activity, prohibited by Section 223 of the Communications Act of 1934, as amended.

### **3.3 Billing Entity Conditions**

When billing functions on behalf of Company or its intermediary are performed by local exchange telephone companies or others, the payment of charge conditions and regulations of such companies and any regulations imposed upon these companies by regulatory bodies having jurisdiction apply. Company's name and toll-free telephone number will appear on the Customer's bill.
