

Logistics and Moving company in Milwaukee Testimonial – Multi-location company. Products: Secure Wide Area Network (SDWAN), Hosted Phone system (UCaaS), and Internet Access

Telecom One improved services for this multi-location customer while reducing costs by \$100k over 5 years.

CH Coakley agrees! – We did what we said we would do - delivered!

“At the beginning of this project we would ask each other “What was the catch”? I’m glad to see there wasn’t one. Kudos to you and the team...it was a bit of a long road and quite a bit of back and forth not only between us but also with our current vendor before we got started. Once the ball was rolling though everything went about as quickly and seamlessly as we could have hoped for considering all the moving pieces to this project. I’ll keep my ears open on anyone else that can use you and I will definitely recommend you.”
